

APPENDIX D

Instructions for Posting Comments on Peers' Blog Posts

1. When you post comments to your classmates' blogs, you will click on the link next to the pencil under their original post. (It might say No Comments if you are the first to add a comment.)

Your comments must be either:

- a positive reaction to their post, something you have in common, etc.
- a question you have about their post
- constructive feedback about how they responded to the teacher's prompt

Remember, do not post a comment that you would not want to read about your own blog.

2. When you post a comment, write it in the comment box, (proofread it!) and then hit the “PUBLISH” button.

Guidelines for Posting Comments

1. For each blog post assignment, you must comment on TWO of your classmates' blogs.
2. Throughout the semester, you must comment on each of your classmates' blogs at least TWICE.
3. Make sure your comments have your name as the author so you get credit for it.
4. Failure to comment on your classmates' blogs will result in your own blog post grade being lowered.
